

07/28/08

Dear Ms. Wright,

As participation in the West Newbury Youth League baseball program grows each year, the demand for field time for practices and games becomes more difficult to accommodate each year. With just one full size junior baseball field in town, the addition of lights at Cammett Park's Major A ballfield would help create more practice time and time for games during the spring and summer baseball seasons. By lengthening the day by just one hour, with the use of lights, a great number of players would be allowed more time on the field - where they want to be. In addition, lights at the Major A ballfield would also benefit surrounding towns by allowing more participation in the West Newbury Youth League's annual summer tournament.

Thank you for considering West Newbury in this year's Field of Dreams IV Sweepstakes.

Sincerely,

Thomas Beaton
President,
West Newbury Youth League
